

criCup

Roasted crickets vending machine

56 cricket farms,
carefully designed for
maximum efficiency.

- * Current methods of meeting the food demand are simply unsustainable.
- * Insects are proven to be rich in nutrients, efficient and an environmentally friendly source of food.
- * The criCup vending machine produces, processes and dispenses 1kg of crickets a day in the form of a healthy snack in a variety of flavours.
- * criCup helps normalise eating insects by being available in public spaces and social contexts.
